The Experts in Pest Control

Flexi Armour Doors

Close the door on nuisance pests and costly infestations with Flexi Armour Doors

Gaps around doors are one of the most common entry points for rodents as all premises have doors and rodents can enter through badly fitted and damaged doors and frames. They can also squeeze through the gap under most doors.

A fully grown rat can squeeze through a 24mm hole and mice can squeeze through a gap of approximately 6.5mm. If the gap isn't big enough, they'll often enlarge it by gnawing.

Doors in busy facilities can also be left open for long periods to allow easy entry and exit of people and machinery for operational reasons, allowing rodents to intrude.

The solution? A range of hard-wearing, extruded rubber solutions with a unique knitted mesh core that prevents rodent ingress.

Why use Flexi Armour Doors

Flexi Armour Doors is part of Rentokil's Flexi Armour range of rodent proofing solutions.

It includes a number of solutions for various doors, so you can be assured we have a solution suitable for your premises. It's been specially designed by the experts in pest control to prevent rodent intrusion through door gaps.

Key features and benefits

Flexi Armour Pedestrian Door Seal

- **Environmentally friendly** Prevents costly and disruptive infestations, so reduces the use of pesticides to control infestations and contributes to your sustainability goals.
- **Professionally and quickly installed** by our expert technicians to minimise disruption to your business
- **Hardwearing** rubber extrusion to prevent rodents gnawing through the material
- **Robustly tested** so you can be assured it's effective and resilient
- **Lasts over twice as long as competitors**, saving you time and money on replacement
- **Fits most** pedestrian doors, so you can be confident we've got a solution suitable for your specific environment

Flexi Armour Shutter Door Base

- **Hard-wearing** extruded rubber with a unique knitted mesh core
- **Lasts over twice as long** as the nearest competitor, saving you time and money on replacement
- Provides a **100% seal** against intruding rodents, offering you complete peace of mind
- Suitable for the **vast majority** of commercial shutter doors, so you can be confident we've got a solution suitable for your specific environment
